Curriculum Vitae

Wim van Haeringen was born in Utrecht, The Netherlands, in October 1973. In 1992, at Utrecht University, education was started in a combination of four faculties – Human Medicine, Veterinary Medicine, Pharmacology and Biology. In 1996, a PhD in genetics was initiated in part-time, which was finalised in 2002.

A full-time position in the Van Haeringen Laboratory (VHL) in Wageningen, the Netherlands was started as well in 1996. In 2000, the company was transferred from Hein van Haeringen (sr.) to Wim van Haeringen.

Since 2000, VHL has developed into a business group of several companies specializing in DNA-technology. The group has obtained a worldwide reputation over the last 24 years through **quality, service and know-how**. At the moment routine tests for animals, bacteria and humans are offered to a global network.

In the last years, Wim has co-authored several scientific publications involving various scientific areas including forensics.
